

Crush the Terraform Associate

- 3 Days
- Lecture and Hands-on Labs
- Includes all objectives found on HashiCorp's Terraform Associate Certification

Course Overview

As enterprises seek to deploy and maintain increasingly complex cloud infrastructure, there is a necessity to use "Infrastructure as Code" (IaC) tools, like Terraform. An open-source, state management tool developed by HashiCorp, Terraform allows developers to use a common coding interface to work through their various clouds safely and efficiently. Attendees will leave being able to write and understand Terraform code (HCL), have a clear understanding of Terraform's various components and supporting tools, as well as when to reach for Terraform over another IaC tool, such as Ansible.

Review this course online at https://www.alta3.com/courses/terraform

Who Should Attend

- DevOps Engineers
- Software Developers
- Technical Managers and Leads
- System and Cloud Administrators
- Network Engineers and Developers

What You'll Learn

- Writing Terraform HCL code
- Deploying into common clouds such as AWS, Azure, Google Cloud, Docker, Oracle, Kubernetes, and VMWare
- Where Terraform fits in the Enterprise CI/CD model
- Differences between Terraform and Ansible
- Best practices
- Prepare for HashiCorp's Terraform Associate Certification
- AI LLM prompt engineering for Terraform snippets and jumpstarting solutions

Outline

Source Code Management

- PLecture: What to Choose?
- \blacksquare Lecture + Lab: SCM Option #1 GitHub
- \(\subseteq \) Lecture + Lab: gitignore for Terraform

Introduction to Terraform

- 🗐 Lecture: Terraform Course Map
- PLecture: Introduction to Terraform

• 🖳 Lecture + Lab: Terraform Install

Terraform Modules

- 📮 Lecture: Terraform HCL Syntax
- \(\subseteq \text{Lecture} + \text{Lab: Up and Running with Terraform} \)
- \$\P\$ Lecture: Terraform Variables
- 🖳 Lecture + Lab: Terraform Variables
- P Lecture: Terraform Locals
- \(\subseteq \text{Lecture} + \text{Lab: Output Values} \)
- P Lecture: Avoid the :latest Tag
- Ψ Challenge: Terraform and Docker

Beyond Basics

- \bullet \sqsubseteq Lecture + Lab: Terraform CLI Workspaces
- **Lecture** + Lab: Terraform Expressions and Errors
- 🖳 Lecture + Lab: Resources replace vs taint
- 🖳 Lecture + Lab: Dynamic Operations with Functions
- 🖳 Lecture + Lab: Creating a Terraform Module
- 🖳 Lecture + Lab: Moving State terraform state mv
- \(\subseteq \text{Lecture} + \text{Lab: Dynamic Provisioning with tfvars Files} \)
- 🖳 Lecture + Lab: Data Sources and HTTP Provider
- \$\Boxed{\Boxes}\$ Lecture: Import pre-existing infrastructure
- 🖳 Lecture + Lab: CHALLENGE AWS import

Loops

- PLecture: for each
- 🖳 Lecture + Lab: Looping Constructs for each

Provisioning

- 🖳 Lecture + Lab: local-exec Provisioner
- 🖳 Lecture + Lab: Creating Delays
- \blacksquare Lecture + Lab: Terraform templatefile Function

Terraform Cloud

- 🖳 Lecture + Lab: Terraform Cloud and Terraform Enterprise
- 🖳 Lecture + Lab: Triggering Cloud Builds via Git Commits

Dynamic Blocks

• \(\subseteq \text{Lecture} + \text{Lab: Dynamic Blocks} \)

AWS

- \blacksquare Lecture + Lab: Terraform and AWS
- \(\subseteq \text{Lecture} + \text{Lab: Output Values and AWS} \)
- \(\subseteq \text{Lecture} + \text{Lab: AWS and looping with count vs for each} \)
- 🖳 Lecture + Lab: Correcting Resource Drift and AWS
- \$\P\$ Challenge: Terraform and AWS

Azure

• <u>Lecture</u> + Lab: Terraform and Azure

Google Cloud Platform

• 🖳 Lecture + Lab: Terraform and Google Cloud Platform

Terraform and Enterprise

- 🖳 Lecture + Lab: Deploy a Go RESTful API microservice with Terraform
- P Lecture: Terraform vs. Ansible
- \blacksquare Lecture + Lab: Terraform and Ansible

Helpful DevOps Tools (OPTIONAL)

- 🖳 Lecture + Lab: Open Policy Agents and Terraform
- 🖳 Lecture + Lab: GitHub Actions GitLeaks
- 🖳 Lecture + Lab: GitHub Actions Terraform
- 🗐 Lecture: Terragrunt

Terraform Associate Exam

• 📮 Lecture: Mock Exam

Prerequisites

Although not required, students with some experience programming, or pre-existing knowledge of cloud architecture, will most appreciate the technical nature of this hands-on course.

Next Courses
